Summary Training

Frontend Developer Trainee   **May 2024 - June 2024**

Gokburu PVT Limited.

- Successfully completed summer training focused on building dynamic and responsive user interfaces.
- Developed 3+ fully functional web applications using React.js, HTML, CSS, and JavaScript, improving site performance by 30% through optimization techniques.
- Collaborated with a team to implement scalable UI architectures, enhancing maintainability and reducing load times by 40% using Tailwind CSS.
- Gained hands-on experience in modern UI frameworks, debugging, and performance optimization.
- Tech Stack: React.js · HTML · CSS · JavaScript · Tailwind

Projects

Homestay Booking Website / *Airbnb Clone, Responsive Web Design*   **Nov 2024 - Dec 2024**

- Engineered a full-fledged homestay booking platform allowing users to browse and book accommodations.
- Implemented user authentication, homestay listings, payment integration, and CRUD operations for listings.
- Integrated backend and frontend using REST APIs, ensuring seamless data flow and dynamic content rendering.
- Learning Outcome: Developed expertise in backend-frontend integration for dynamic web applications.
- Tech Stack: HTML, CSS, Bootstrap, JavaScript, Node.js, MongoDB, Express, EJS, React.

Gptflix Website / *AI Movie Recommendation*   **Aug 2024 - Oct 2024**

- Designed an AI-powered movie recommendation website using Google Gemini AI for intelligent suggestions.
- Integrated Firebase authentication, multi-language support, and real-time AI-based recommendations.
- Utilized TMDB API for fetching movie data and Google Gemini AI for personalized recommendations.
- Learning Outcome: Gained hands-on experience in API integration, authentication systems, and AI-powered search.
- Tech Stack: React, Firebase, Tailwind, Google Gemini AI, TMDB API.

EatExpress / *Food Delivery App*   **June 2024 - July 2024**

- *Built a food delivery frontend application with real-time data integration from Swiggy API.*
- Implemented features like restaurant search, filtering, add to cart functionality, and optimized live API data handling.
- Used Redux & Redux Toolkit for state management and Jest for unit testing.
- Learning Outcome: Improved skills in quick rendering, reusable components, API handling, and React testing.
- Tech Stack: React, Redux Toolkit, Tailwind, Jest, Swiggy Live API.

Certificates

Cloud Computing   **Dec 2024**

NTPEL — Certificate Link

Front-End Web Development   **Sep 2024**

LinkedIn — Certificate Link

Technical Skills

Languages: C++, JavaScript, HTML, CSS, SQL

Technologies/Frameworks: Node.js, Express, React, Redux, Tailwind, VSCode, Git, GitHub, Chrome DevTools, Linux, MySQL, MongoDB, Docker

Skills: Problem Solving, Teamwork, Team Player, Adaptability

Education

Lovely Professional University   **2022 – present**

Computer Science and Engineering — CGPA: 8.12   *Jalandhar, Punjab*

Hetauda School of Management and Science   **2020 – 2021**

12th with Science — Percentage: 77.76%

Tulasi Mehar Memorial Sec School   **2018 – 2019**

10th with Science — Percentage: 73.56%
